

HAZMAT SPILL?

Call the HAZMAT Response Team at if:

- People and property are at risk or
- You have not been trained in spill response or
- You do not have the appropriate personal protective equipment (PPE) and spill cleanup equipment

Otherwise:

- Alert your co-workers and clear the immediate area
- Remove ignition sources and shut down equipment
- Locate the spill kit, MSDS and appropriate PPE
 - Confine or contain the spill
 - Attend to the victims
 - Clean up the spill completely
 - Decontaminate equipment and PPE
- Dispose of waste properly
- Submit a spill report to
